ABOUT ME

Enthusiastic engineering student skilled in C, Java, and frontend developer, with experience in building real-time applications. Strong in problem-solving, teamwork, and eager to learn and contribute to impactful projects.

EDUCATION

- **B.E - Computer Science And Design** - 2023-2027 Kongu Engineering College
8.46 CGPA(5th sem)
 - **HSC - 2022-2023** RGM Matric Hr Sec School - 92.5%
 - **SSLC - 2021-2022** RGM Matric Hr Sec School - PASS
-

SKILLS

- **LANGUAGE:** Java, C
 - **TOOLS:** Figma
 - **FRONTEND:** HTML, CSS, React JS
 - **DATABASE:** MySQL
-

AREAS OF INTEREST

- Data Structures
 - DBMS
-

PROJECTS

HACK CONNECT

- Aggregate and showcase hackathons from colleges cross India, providing students with a centralized platform to explore, register, and participate in events.
- Enable cross-college collaboration by allowing students to connect and form teams within the platform, fostering innovation and networking opportunities.

RENEWABLE ENERGY MANAGEMENT

- Efficiently manage and optimize solar, wind and battery energy to reduce dependency on grid power, lower electricity costs and ensure a reliable and sustainable energy supply for the campus
-

ACHIEVEMENTS

- Secured Second price in presenting Hack Connect at Proof Of Concept at Kongu Engineering College.
- Smart India Hackathon finalist at 2025 presented at Poornima College Of Engineering - PCE at Jaipur.
